

**WOMEN'S  
RIGHTS  
NETWORK**

**Australia**

**DO YOU CARE ABOUT WOMEN'S RIGHTS?**

### WHO ARE WE?

**Women's Rights Network Australia** is a national group of everyday Australian Women. We advocate for the **sex-based rights** of women and girls living in Australia.

### OUR GOALS AND VALUES

- **We oppose** laws and policies that replace "sex" with "gender identity" as they unfairly discriminate and disadvantage women and girls.
- **We support** ending male violence against women and oppose allowing natal males access to female-only sex-segregated spaces.
- **We oppose** the medicalisation of gender identity in children and adolescents.
- **We advocate** for the "women's category" of sports to exclude natal-born males to ensure fair play, safety, and dignity of women and girls
- **We support** the rights of lesbians to associate in female-only spaces and groups without men.
- **We support** freedom of opinion, free expression, peaceful assembly, and political participation.

### JOIN US

Advocate and fight for women's sex-based rights in law, language, and social practice.

## Meet Bob

Bob is legally female

*Sex Self-ID  
gives men the  
key to access  
spaces reserved  
for women and  
girls*

**Bob is a 47 year old man** who is very sporty – he swims & plays footy. On the surface Bob looks like a typical bloke and even wears a beard.

Deep down, Bob feels that he is really a woman. **So Bob goes online and fills in a form to change his recorded sex.** He does not need to tell anyone, or visit a doctor.

**In fact Bob does not wish to medically transition.** He continues to wear what he is most comfortable in – jeans and t-shirts, and keeps his beard.

**Bob is legally entitled to use female toilets** at work, even if his coworkers are uncomfortable with him there.

After work he visits a pool and changes in the female change rooms where little girls are showering naked. A mother complains but is told that **Bob is legally female and has a right to be in this female-only space.**
